

## INTRODUCTION

The PowerTac E10R high-power LED flashlight is a USB rechargeable-battery version of our E10 Spark. It is engineered using the latest cutting-edge technology and finest quality components; manufactured with exceptional craftsmanship and unbeatable reliability. Considering its compact size (less than 3" in length), it produces a dramatic maximum light output of 600 lumens, with a focused beam distance of 172 meters. The pocket-sized E10R is extremely versatile; it features a built-in micro USB port to recharge a RCR123A battery (included) without removing it. In addition, an integrated magnetized tail cap attaches to any ferrous (iron) metal object that can be used as a work lamp. Equipped with a simple user interface side-switch that auto-memorizes last light mode setting. The E10R is the preferred choice of many individuals seeking a compact, high-lumen professional-grade flashlight; ideal for mechanics, technicians, law enforcement and outdoor enthusiasts.

## USAGE INSTRUCTIONS

1. To install battery, unscrew tail cap. Insert positive end of the battery towards LED. Tighten the tail cap till it's completely closed.
2. To turn the light ON, quickly push the side button to illuminate LED; to adjust light settings, press and HOLD down side button. The flashlight will change modes in the following order: Firefly–Low–Medium–High and back to Firefly. The last setting used will be auto-memorized when turned off.
3. To charge E10R battery, unseat rubber cap on charge-port. Plug in small end of supplied USB cord into the flashlight; plug in DC USB attachment (not supplied) into power source and begin charging. The indicator light inside side-switch will be red when depleted and will change to blue when fully charged.

## Maintenance

Every 3 months, threads should be wiped with a clean cloth followed by a thin coating of silicon-based lubricant.

**LED TYPE:** CREE XM-L2 U2 LED

### ILLUMINATION FUNCTIONS

Mode:	Firefly	Low	Medium	High	Strobe
Output:	0.1 lm	36 lm	190 lm	600 lm	600lm
Runtime:	132 hrs	11 hrs	1.9 hrs	0.9 hrs	1.8 hrs

# E10R

EVERY DAY CARRY FLASHLIGHT

USER MANUAL

## FEATURES & SPECIFICATIONS

- Powerful CREE XM-L2 U2 LED produces 600 Lumens (with a 4.2V RCR123A rechargeable battery) at the brightest setting including strobe.
- 172 meters of throw with impressive flood to also light up close areas.
- Includes one 700mAh RCR123A 4.2V (16340) rechargeable lithium-ion battery. A full charge will provide 132 hours of constant runtime on the lowest setting.
- Has a strong magnetic tail cap that can mount onto metallic surfaces to illuminate your work area.
- Built in pocket clip that can be used on the bill of a baseball cap. It can also be used as a headlamp.
- Advance digital circuit control technology to maximize battery life and provide consistent light output.
- 5 different settings that include 4 levels of brightness plus a strobe. Auto memorization for all settings.
- Machined from aircraft grade aluminum. Has type III anodized finish.
- Double coated glass lens to give maximum OTF (Out The Front) for maximum brightness and beam distance.
- Waterproof to IPX7 standard. Submersible up to 1 meter under water.

## DISCLAIMER

- After long periods of use on the highest setting, the surface area may get hot. Please use caution when using the flashlight in a constant high brightness level. It is recommended to let the flashlight cool down to prevent any injury.
- High intensity light is harmful to human eyes. This product is not meant to be handled by children under the age of 18 without adult supervision.
- Use the highest quality, protected-circuit batteries to insure maximum performance and safety. Consult with the manufacturer regarding any questions or concerns.
- PowerTac's liability is voided if the light is not used in a proper manner or if modified.
- PowerTac reserves the right to change the design and/or specifications of all PowerTac products without prior notice.
- Please do not change batteries at dangerous locations such as gas stations. Batteries must only be changed or removed when light is off.
- Do not use or attempt to recharge a disposable CR123 battery! Do not throw the flashlight into a fire as an explosion may occur.

## THE POWERTAC NO-HASSLE LIFETIME WARRANTY

PowerTac warrants our illumination tools to be free from defects in workmanship and materials, including any LEDs housed within, for the lifetime of the original parts (the lifetime of the parts are specified by individual parts manufacturers). We will repair or replace your original purchase of these products, at our discretion, if it is determined by us to be defective. Electronics, chargers, and rechargeable batteries are covered for a period of two years with proof of purchase. Normal wear and tear – including lamps burning out, batteries draining, and switches wearing out – is not covered, nor is damage resulting from misuse, abuse, neglect, battery damage, use of other non-approved batteries or altering these products from their original state. Parts and accessories for illumination tools are not covered by this warranty

## WARRANTY DISCLAIMER

The above warranty is exclusive, and to the extent permitted by applicable laws, shall be in lieu of all other warranties, express or implied, including, without limitation, any warranty of merchantability or fitness for a particular use or purpose. PowerTac disclaims any and all liability for product malfunctions, physical injuries, or property damages that result in whole, or in part, from the criminal, negligent, or improper use of the product, or from modifications or alterations thereto. In no event shall PowerTac be liable for any incidental, special, or consequential damages relating to the purchase, use, or performance of any PowerTac product.
