

## INTRODUCTION

The E5 generation IV high-power LED flashlight is designed specifically to be the ultimate Every Day Carrying (EDC) and tactical light. It is built with cutting-edge technology, unparalleled performance, exceptional craftsmanship, and unbeatable reliability. It comes with a user-friendly interface for simple operation and multi-functions for different situations. It is perfectly engineered to be extremely portable and powerful. It delivers on design, performance, quality and reliability. Making it the preferred choice by many professionals and ideal for military, law enforcement, adventurers, hunters, and search and rescue.

## USAGE INSTRUCTIONS

1. To install battery: Unscrew tail cap. Insert positive end of the battery towards LED. Tighten the tail cap till it's completely closed.
2. To turn the light ON: Push the back switch to click. Once Turned on the flashlight will access the mode last used. To Turn the Light OFF, push the back button to click.
3. To switch light levels: Turn the light on and press the side switch (click). Press side switch again (click) will cycle to next light level.
4. Access the direct to strobe function: Turn light on and hold down side switch (long click, 0.3 seconds). The light will remain on strobe until you switch light levels.
5. Toggle Strobe / High Function: Access direct to strobe function; release side switch; hold down side switch again (long click) and light will toggle to high mode. Hold down side switch again (long click) and toggle to strobe again.

**LED TYPE:** CREE XM-L2 U2 LED

## ILLUMINATION FUNCTIONS

Mode:	Firefly	Low	Medium	High	Strobe
Output:	2 lm	82 lm	416 lm	980 lm	980 lm
Runtime:	706 hrs	15 hrs	3 hrs	1.5 hrs	3 hrs

**Battery:** (2) CR123A or (1) 18650 Rechargeable Li-ion.  
NOT compatible with RCR123A / 16340

**Size:** Length:128.5mm  
Bezel Diameter: 25.4mm  
Body Diameter: 22mm

**Weight:** 69g (without battery)

**E5**  
TACTICAL FLASHLIGHT

**USER MANUAL**

## FEATURES & SPECIFICATIONS

- Powerful CREE XM-L2 U2 LED produces 980 Lumens at the brightest setting including strobe.
- 200+ meters of throw to illuminate both long and short distances.
- Simple user interface for tactical and self-defense . Integrated side switch for quick access of functions.
- Unique digital circuit technology to maximize battery life and give consistent light output.
- Reverse polarity protection. Protects from improper battery installation.
- 5 different settings that include 4 levels of brightness plus a strobe. Auto memorization for all settings.
- Machined from aircraft grade aluminum. Has type III anodized finish.
- Double coated glass lens to give maximum OTF (Out The Front) brightness and beam distance.
- Tempered glass to resist breaking and scratching upon impact.
- Waterproof to IPX8 standard. Submersible up to 2 meters under water.

## DISCLAIMER

- After long periods of use on the highest setting, the surface area may get hot. Please use caution when using the flashlight in a constant high brightness level. It is recommended to let the flashlight cool down to prevent any injury.
- High intensity light is harmful to human eyes. This product is not meant to be handled by children under the age of 18 without adult supervision.
- Use the highest quality, protected-circuit batteries to insure maximum performance and safety. Consult with the manufacturer regarding any questions or concerns.
- PowerTac's liability is voided if the light is not used in a proper manner or if modified.
- PowerTac reserves the right to change the design and/or specifications of all PowerTac products without prior notice.
- Please do not change batteries at dangerous locations such as gas stations. Batteries must only be changed or removed when light is off.
- Do not use or attempt to recharge a disposable CR123 battery! Do not throw the flashlight into a fire as an explosion may occur.

## THE POWERTAC NO-HASSLE LIFETIME WARRANTY

PowerTac warrants our illumination tools to be free from defects in workmanship and materials, including any LEDs housed within, for the lifetime of the original parts (The lifetime of the parts are specified by individual parts manufacturers). If it is determined by us to be defective, we will repair or replace your original purchase of these products, at our discretion. Electronics, chargers, and rechargeable batteries are covered for a period of two years with proof of purchase. Normal wear and tear – including lamps burning out, batteries draining, and switches wearing out – is not covered, nor is damage resulting from misuse, abuse, neglect, battery damage, use of other non-approved batteries or altering these products from their original state. Parts and accessories for illumination tools are not covered by this warranty.

## WARRANTY DISCLAIMER

The above warranty is exclusive, and to the extent permitted by applicable laws, shall be in lieu of all other warranties, express or implied, including, without limitation, any warranty of merchantability or fitness for a particular use or purpose. PowerTac disclaims any and all liability for product malfunctions, physical injuries, or property damages that result in whole, or in part, from the criminal, negligent, or improper use of the product, or from modifications or alterations thereto. In no event shall PowerTac be liable for any incidental, special, or consequential damages relating to the purchase, use, or performance of any PowerTac product.
